III. Scripts

Use the following manifestation scripts to welcome opportunities and support for success, better relationships and money to flow in your direction. Articulate your desires clearly and specifically to include in the scripts below.

Success

Opportunities for success come easily and often. I desire opportunities for _____ (clients, leads, followers, collaborations, PR, stage). These come easily and immediately. Using my discernment, I say YES in whatever form they present. I commit to my opportunities without expectation.

I welcome support in creating success in my business. I welcome _____(examples, VA, marketing tips, resources, technology platform, ease, etc.) I articulate the type of support I desire clearly and concisely. I respond affirmatively when it presents itself. I rely on my support and trust it implicitly.

Relationships

Opportunistic relationships form beautifully and smoothly. I say YES to opportunities to work with others. There is no competition, there is only collaboration. I let go of control and step into influence to allow the relationships to flow with gracious give and take. Relationships are equal and I am open to receiving and giving in equal measure.

My relationships support me in the ways I've requested. I love support to be _____ (on demand, before I even know I need it, at the ready, ad hoc, timely). Support in my business and life is spacious and luscious. I'm supported in ways I've never dreamed.

Money

Opportunities for money come easily and immediately. I attract money every single day. Money comes in with my work actively and passively. My income grows as opportunities seem to fall from the sky. They come out of nowhere and I say YES! I love money and I especially love opportunities for making and saving money.

Money supports me in all of the ways. Money is always in my checking account, my savings and investment accounts grow and money appears in my wallet magically. Money loves to be with me and I love to be with money. Money is my friend and I have to merely ask and money comes running.

If you want to really tune opportunities and support up, write the manifestation scripts in your journal for 8 days and welcome the energies in your life. Breathe them in. Say YES when they come. Hello opportunity and support!

BONUS TIP:

The vision board, affirmations and scripts are an excellent way to start awakening your intuition AND your intuition doesn't reside in your mind. Open up your heart and deepen your energy by being creative with the vision boards and saying the affirmations and scripts with feeling,

Deepening your intuition
and then doing the activities
ignites your intuition for
business and life.

Your intuition wants to
create all the things with
you.

Have fun and enjoy the
meditation and activities!
