BIG STAR QUESTIONS

1. How do you love yourself?
2. What do you value?
3. How do you create opportunities?

The first of three major questions in 2022 begins this year on December 19th. The other two questions come up through 5 star events, occurring January through May, letting you work with the answers through the second half of the year. Then, the questions merge in the last quarter to either propel you or confuse you through the first part of 2023.

I. HOW DO YOU LOVE YOURSELF?

Venus retrograde in Capricorn
26 – 11°
December 19 – January 29
@ 5:35 am ET

Venus asks you to look deeply within every 18 months and she's asking you again during this holiday season. This is reminiscent of the October 2018 depth plunge as she blends with Pluto to revert the mirror to nakedly see you – all of your strengths, flaws and secrets.

There's no hiding as the Sun and Moon get involved on the first day, shining a bright light into your innermost desires. Your heart swells and shivers, revealing the dark secrets of your soul. Venus wants you to finally know your value and commit to leading your life in the world. She pushes you to put forth your greatest acts of leadership.

When you daydream, how are you appreciated and acknowledged? What is your honest answer about your deepest yearnings to be seen, heard and known? What are your impact desires? You have the opportunity to delve into each and make strides toward them through the virtues of Venus in Capricorn. Venus retrograde in Capricorn brings you fortitude, authenticity and integrity. Use these virtues wisely.

“I sought out Kim because her mix of business strategy and spirituality aligned with what I knew I needed. What I DIDN'T KNOW at the time, was that she would prove to be INVALUABLE to me. She has an innate ability to shine a light on your soul and in the most loving way, call you on your BS! Kim is pure gold, and I am forever grateful for knowing her.

2. WHAT DO YOU VALUE?

Lunar Nodes – Soul destiny & karma
Taurus North Node
Scorpio South Node
Jan 18 – July 17, 2023

The collective soul karma shifts again on January 18th and stays in the energies of Taurus and Scorpio until July 17, 2023. The cacophony of the Gemini/Sagittarius karmic tension falls silent after an exhaustive 18 months. No more noisy, endless shouting. Relief comes with muted tones and muffled voices. However, the silence may be deafening as the world has become commotion-blind.

Striving for Taurian qualities, everyone has the ability to reach for status, position and luxury. Tradition, dignity, natural beauty and the arts reign. Calm, stability and value are at the fore as are money, nature and stewardship. Environmental and animal rights are core themes in the upcoming months.

The quest involves releasing the Scorpio melee of drama, greed and power grabs. Who will hold on and who will allow the unfolding of Taurian peace?

For insight into your own life, look to the prior time frames:

- Apr 15, 2003 – Dec 26, 2004
- Sep 12, 1984 – Apr 6, 1986
- Feb 20, 1966 – Aug 19, 1967
- Aug 3, 1947 – Jan 26, 1949

For those born in these years, the nodes bring

you home again. These karmic pulls impact you the most. Move toward comfort and security, while healing possessive and materialistic tendencies.

Collectively, the Taurus/Scorpio combination brings up uncomfortable, taboo or violent subjects and shakes the ground – literally.

TABOO SUBJECTS:

- In June 2003, Martha Stewart is indicted for insider trading.
- CIA admits there were no weapons of mass destruction prior to invasion of Iraq.
- Spain train explosions killing 190.
- Siege at Russian school with 335 killed and 700 injured.

WEATHER EVENTS:

- In May 2003, there were more tornadoes in the Midwest than ever recorded – 393 in one week.
- In December 2004, an earthquake at 9.3 on the Richter scale leads to greatest tsunami disaster with 290,000 deaths.
- Hurricane Charlie, Ivan and Jeanne wreak havoc in Caribbean and Gulf of Mexico.

- Multiple catastrophic earthquakes and typhoons in Japan.

Eclipses

Everyone can take advantage of the ecliptic periods that occur every 6 months.

These periods may obscure the truth or provide shadows to hide in, yet they are powerful energies to set intentions for the next 6 months. Eclipses come in pairs, 2 weeks apart, and provide their own energies impacting you personally and collectively.

The Lunar Eclipse reveals what requires your attention, culminates a beginning or opportunity and evokes emotional exploration. It typically relates to the Solar Eclipse of the prior 6 months.

The Solar Eclipse brings a new beginning, an opportunity for transformation and an idea of what's happening in the collective. This kicks-off the next 6-month cycle.

Between the Full Moon/Lunar Eclipse and the New Moon/Solar Eclipse period, releasing outdated modes and planning for the next ½ year get you ready to thrive in the upcoming months.

Let's look into the themes of the two ecliptic periods of 2022.

**APRIL 30 – PARTIAL SOLAR ECLIPSE/
NEW MOON IN TAURUS 10°**

**MAY 16 – TOTAL LUNAR ECLIPSE/
FULL MOON TAURUS/SCORPIO 25°**

April & May ecliptic pair has you asking WHAT'S REAL? There's a push and pull of scarcity & restriction with overly indulgent behaviors. It's

confusing to know which is real and which is fake. Dive into your intuitive knowing for the answers you seek. Use the Martial and Uranian energies to take action to achieve the future you desire.

Remember to set your intentions based on what you value.

**OCTOBER 25 – PARTIAL SOLAR ECLIPSE/
NEW MOON IN SCORPIO 2°**

**NOVEMBER 8 – TOTAL LUNAR ECLIPSE/
FULL MOON SCORPIO/ TAURUS 16°**

October & November ecliptic pair is themed UNPREDICTABLE. Any positivity during these two weeks may be fraught with misdirection or misalignment. Take heed. Everything is cloudy and confusing. Take a break, time off or a staycation.

If you must stay focused, dive deeply into your intuition. It's the only clarity you have available. Better yet, follow the strategy you set at the end of 2021.

Setting intentions for personal growth and success are given incredible power during the semi-annual ecliptic pairs. Let's use this power to your advantage. [Join us in our free Power Up Your Intuition group.](#) We always cover how to ramp up your intentional magic.

3. HOW DO YOU CREATE OPPORTUNITIES?

Opportunity creation is at the fore for the first half of 2022 and using these opportunities to manifest success fills the later part of the year.

However.

Yes, unfortunately, there's a however.

Let's glimpse into the stars to see what's what.

Jupiter, the gregarious, expansive, blessings-filled one, is at the epicenter of 2022. Sounds amazing, right? Let's explore what it means when he dances with Uranus in February, Neptune in April, Pluto in May and changes signs back and forth between Pisces and Aries.

All of the Jupiter star dances are back-dropped by the Saturn-Uranus star clangs of 2021 as these continue through October this year.

Finally, Mars brings up the rear as he takes a spin in Gemini for 6-months. Typically, Mars moves quickly through the signs, every 6 weeks or so, but this year, he spends 6 months in the flirty, flighty Gemini.

Each of the star configurations are important for you to create opportunities for success.

ALL ABOUT JUPITER

Jupiter is on center stage this year and for the first half, he's in his own sign of Pisces – making him MORE of himself. For this King of the Gods, that's A LOT. The second half of the year, he's in fiery Aries and that's a lot too. Let's see what he's up to and how he'll affect you.

JUPITER FOR INNOVATION

February 17
 Pisces Jupiter sextile
 Taurus Uranus 11°
 @ 7:11 pm ET

Jupiter expands everything he touches and he's playing with Uranus, the restless innovative, future-oriented behemoth who's been slapping you since the beginning of last year. In his higher expression, Jupiter brings positive changes, good fortune and travel plans. He seeks innovation, solves problems and advances scientific achievements. In his lower expression, he increases anxiety, chaos and rebellion.

As this configuration backs into a Full Moon and the USA Plutonian return, the word rebellion takes on new meaning.

Personally, stay focused on Taurus' patience and perseverance.

Collectively, I'll be doing a special and separate LIVE for world events in 2022 on

Tuesday, January 25th @ 9:30 am ET on my FB page. [Join me LIVE or catch the #replay.](#)

JUPITER FOR POSSIBILITY

April 12
Pisces Jupiter conjunct
Neptune 23°
@ 10:42 am ET

You've been feeling the uncertain, boundless expansion of Neptune in Pisces since 2011, so you may feel you've gotten use to his energies. Nope, not even close. Jupiter takes everything and expands it. EVERY. THING. The good news is Jupiter entered Pisces during the summer last year from May 13 – July 28th, yet was retrograde for part of his time as were Pluto, Saturn and Neptune. You felt it, but not to its fullest.

Now these two big guys are coming together exactly on April 12th. This is the biggest star event of 2022 and infinity-squared may be the only correct term.

The possibilities are many – broadened view point, acceptance & inclusion, increased awareness and consciousness, imagination, creativity, love. Even better - philanthropy, generosity and satisfying success. Yet, there's no texture or terra firma. These 2 giants are amorphous. Getting a footing is almost impossible. There's a silver lining to the lack of terra firma as the lower expression of these two involve exaggerations, lies, conspiracy theories, delusion and deception.

Personally, you may gloss over analytics, bypass hard work to reach success or be duped by someone's too-good-to-be-true methods. Stand in your intuition, get healing and be creative. Take advantage of the highest parts of these two coming together.

There's love, tender romance and sweetness in the air. Enjoy it fully.

Collectively, the virus and weather events have a chance to run amuck. However, scientific advances have just as much of a chance where the virus is concerned. Stay true to your values about how you want to manage yourself and your family around the virus. Holistic and natural remedies get a boost as does commonsense wellness practices.

JUPITER FOR SUCCESS

May 3
Pisces Jupiter sextile
Capricorn Pluto 28°
@ 6:11 pm ET

Jupiter and Pluto love success, power and influence. They desire positive change and making it easy to attain. There's nothing for you to do, except let it happen.

Additionally, you can expand on anything you set in motion in 2018, the last time Jupiter and Pluto

stimulated their energies. In 2018, Jupiter was in Scorpio for deepening and now, in Pisces, he's about expansion. Remember what you moved through, solidified or captured 4 years ago. Expand on the seeds you planted, it's their time to blossom.

Watch the collective for resolution of the rebellious energies of February. You may see acquiescence or at least a yielding of the separate forces. Muting the violent tendencies of the polarities throughout the world is a welcome relief. Maturity is required for the relief to be experienced, further dissolution is probable with knee-jerk and thoughtless reactions.

JUPITER FOR OPPORTUNITY

Jupiter ingres Pisces
May 13 – July 28, 2021
Dec 28, 2021 – May 10, 2022
Oct 28 – Dec 20, 2022

In Pisces, Jupiter brings compassion, service-orientation and imagination. He's creativity personified as well as lucky and easygoing. He brought a breath of fresh air, however brief, to 2021 as he danced back and forth between Aquarius and Pisces. Saturn and Uranus wrangled with the Jupiter in Pisces energy in 2021 and it does this year.

As Jupiter makes you think everything is possible, even the improbable, so rely on the realism of Saturn to keep everything in perspective.

Jupiter expands everything – feelings and emotions, as well as beliefs and dreams, while he's in Pisces. Drop into your heart as Pisces rewards the heart over the mind. Better yet, rely on your intuition –

that's Pisces favorite.

Jupiter in Pisces is an excellent time to imagine and create as well as say YES to opportunity.

In the collective, Jupiter in Pisces adds softness to the aggressive energies. With all of the planets in direct motion between February and the end of April, this is good news.

JUPITER FOR LEADERSHIP

Jupiter ingres Aries
May 10 – Oct 28, 2022
Dec 20 – May 16, 2023

Jupiter in Aries is a fiery blast. These two spark each other with opportunity, risk and fortune. Jupiter rewards those who take risks, he thrives on the greatest ones of all. He loves when you take a blind leap of faith and yet with the discernment you learned throughout 2021, you can take calculated risks for lasting success. Your best options are to demonstrate confidence, take the lead and innovate.

Use this energy to push you toward your definition of success and desired impact. Remember, aligning with your true life purpose, claiming your power and allowing your prosperity are the keys to achieving satisfying success.

Jupiter pushes everything when in Aries. He may push you outside of your lane, so stay true to YOU. Success is empty when it's not aligned. Success is also exhausting when it's for its own sake.

Collectively, Jupiter in Aries adds fuel to the fires that are burning around the world. Greed, power plays and selfish pursuit toward one's own needs is the downside. Jupiter expands everything – the good and the bad.

PESKY 2021 STAR CLANGS

**Saturn Uranus squaring together
Feb, June, Dec 2021
Staying together through Oct 2022**

Last year, Saturn held the reins as he pulled Uranus way back, limiting and restricting nearly every possibility. The clanging between the past and the future, realism and potential and lack and prosperity was exhausting. The good fortune moments were about laying groundwork and planting seeds. Success was hard won.

Now, these two squeeze Jupiter's energy as Uranus takes the lead, driving Saturn versus the other way around. This brings more shake-ups without any terra firma. The lack of stability creates uncertainty and an inability to see clearly.

Your pathway to success?

Follow the strategy you set forth and the poles you rooted in 2021. Recall the seeds you planted in 2018. Each of these gives you the insight to use its momentum in the later part of 2022. Knowing your values, aligning with your power and trusting your intuition are the forces to work with this year.

The timing for greatest impact with these two giants is the beginning of the year, easing March – June and getting tighter in July. By the end of the year, the configuration eases until 2043.

This squaring was last felt in 1999, ending in May 2000. Not ironically, this coincides almost seamlessly with the Grand Conjunction (800-year star) from December 2020, making its impact that much greater.

MARS IN GEMINI

**Mars ingres & retrograde Gemini
October 30 –
Mar 2023**

Gemini is everything mind, words and interests. This sign can't get enough material to read, debate and broadcast. The cacophony that quieted down in January ramps up again with the sheer power of Mars. Curiosity, excitement, new ideas and insights thrive and boredom, impatience and scattered focus reign. Mars pushes your mind in Gemini, making it a wonderful time to take a class, learn a new skill or digest lots of information. It's also a great time for a meeting of the minds, where coming together in understanding is possible.

When Mars enters a sign, he usually stays for 6 weeks, yet will spend over 7 months here between late August 2022 and March 2023.

For those use to this energy, it'll feel familiar. For others, take care as your mind may be exhausted after such a long time in this sign.

I'll be diving into the house placements to help you determine what actions to take to make the most of this energy. Keep an eye on your inbox.

I. FIND YOUR ANSWERS

Your mind isn't happy with all of the uncertainty of the past few years and wants to protect you. This is fine when changes and growth aren't on the menu, but that's not the case right now.

Your mind is not your friend at the moment as it's preventing you from creating the life you truly desire. You can appreciate your mind by giving it a job. Knowing what's happening in the stars is one way. Combining your intuition with well-thought strategy is another.

DEVELOP YOUR INTUITION

For the past few years, the stars conspire to make you look internally, instead of externally. 2020 forced you to identify what really matters, 2021 shook you back and forth and 2022 wants to spin you up, down and all around.

Don't. Let. It.

Power your life by going inward to find answers. Rely on your instincts and use your intuition.

Your intuition is your gyroscope, enabling you to continually right yourself.

Righting yourself is super important this year as there are constant destabilizing forces. Confusing signs, nebulous meanings and unclear directions

are the elements of 2022.

The only clarity available is your internal compass.

Your intuition is the key, yet you may not trust your intuitive voice.

This is a THING.

Trusting your intuition is the #1 thing I get asked about by clients, TV hosts, business leaders and Podcast interviewers.

So, how to best develop your intuition so you can trust it?

We've set up a winning formula. In fact, it's revolutionary.

The formula is:

**INTUITION DEVELOPMENT =
YOUR INTUITIVE TYPE + PILLARS OF INTUITION**

YOUR INTUITIVE TYPE

Finding out the best way to develop your intuition is based on your intuitive type.

Different people use their minds, while others go into their hearts and even others, use their senses. There's no right or wrong way to develop your intuition, there are just different ways.

We've created a quiz to help you determine your intuitive type. The quiz involves 12 'all about you' questions and at the end, you learn your avatar or intuitive type. There are 6 types and knowing which one you are is wildly helpful for developing your intuition.

I could possibly go on forever about what it has done for me to work with Kim. Literally forever! I would recommend working with Kim if you feel you are finally ready. Ready to live. ready to thrive! Ready to succeed beyond your wildest dreams!

*- Brigitte Barr,
Beauty Cove*

As a bonus, discovering your intuitive type helps you answer the 2022 BIG questions.

To get your intuitive type, take the quiz at <https://www.kimwoods.com/knowyourlifequiz/> Or scan the code.

PILLARS OF INTUITION

The pillars of intuition provide the strategy for developing your intuition. Once you do, these pillars give you the pathway to create a satisfyingly successful life.

Develop your intuition through its pillars:

- KNOW yourself to discover your direction and purpose.
- LIKE yourself to feel your power.
- TRUST yourself to manifest your desires.

Using these pillars enable your intuition to be the supportive force helping you make decisions, step into your power and realize your prosperity.

Combining these pillars with your intuitive type give you all the tools you need to trust your intuition.

In this guide, you'll follow the pillars of intuition with the intention of ALIGNMENT.

II. MANIFEST YOUR DESIRES

It's interesting to know what's happening in the stars at the top of the year. It's powerful to understand how they relate to you. It's impactful to know how to use them to manifest your desires.

With the theme of value and going internally to know yourself fully, you can maximize impact by relying on the intentions of alignment and momentum.

ALIGNMENT

Aligning your mind, heart and will makes you unstoppable, especially this year.

Knowing your mind, liking your heart and trusting your will increases your ability to create opportunities to manifest your desires.

KNOW YOUR MIND

Opening your mind by absorbing future-oriented information, gaining insights and answering big questions supports your growth. To know your mind, use the stars, pull oracle cards and ponder the big questions.

Use the Stars

Follow the guidance of an **oracle** forecast.

The stars always tell you exactly what's going on and give you the support you need to thrive instead of just survive. You only need an interpreter to listen and integrate. I'm here to be the interpreter and **messenger of the stars** so you can manifest the life you desire.

Oracle Cards

The oracle card for 2022 is #26 UNIQUE

Gain insight through oracle cards. In 2022, the oracle message involves owning your rarity. Talk about value – this is your value personified. Look at the image of the elephant with zebra stripes. He's not feeling left-out or alien to anyone else. He's claiming himself and strutting his stuff. That's exactly what you want to do this year. BE YOU.

Answer the big questions

Journal, follow the stars, pull oracle cards and ponder the meaning of the questions about love, value and opportunity posed throughout the year.

Like your heart

When you feel your heart by liking yourself enough, you let your heart lead. You allow your heart to nurture you by taking sweet care of yourself, listening to its wisdom and connecting with others.

You feel your desires and sense your worth.

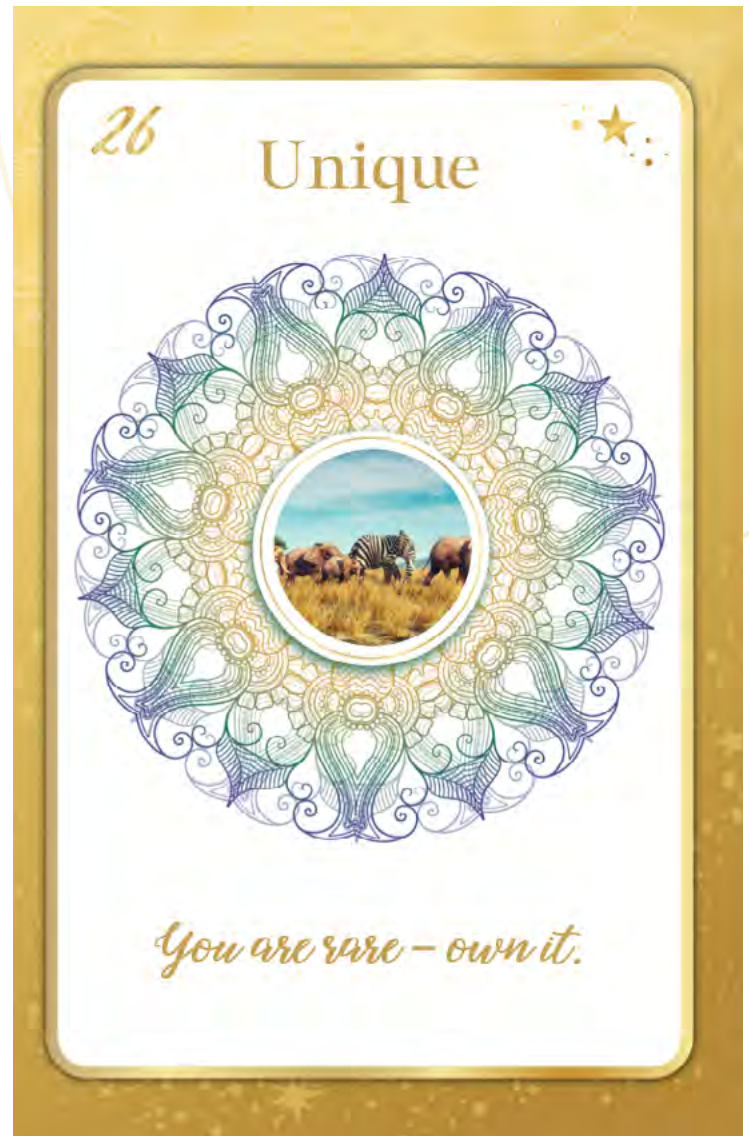

Your mind has most likely taken your heart hostage, so you want to quiet your mind and give your heart the space it needs. Communing with the Moon and flower essences are excellent tools to feed your heart.

Moon Magic

The Moon represents your heart and all of its magic. Go to the Moon phase section of this guide to get information about how to connect with her.

Flower Essences

Flowers have incredible healing energy. Their own

healing properties are blended with the vast imprint of the cosmos as well as with the lifeblood all of Earth's elements.

There are three Delta Gardens flower essence that are perfect for 2022.

Feminine soul link – provides safety and security of archetypal mother energy. Feel unconditional love, perhaps for the first time.

Irish wind – catalyst for clearing old patterns and preparing the heart for upcoming changes.

Red helleborine orchid – helps connect with others without judgment or restlessness. Provides ease and endurance.

Trust your will

Forward movement is necessary to manifest what you desire. Give yourself permission to step into your momentum to create opportunities.

Crystal pack

The crystals for 2022 align with the energies and help with imprinting your potential, claiming your power and stepping into the uncertain territory. Use crystal energy by carrying them with you, putting them on a special shelf or by meditating and doing ritual.

Herkimer diamond – imprint your soul desires with this crystal. Herkimer diamond holds the energies of your intentions. Maximize impact through this stone.

Tangerine quartz – open your sacral chakra for playfulness, joy and creativity. This crystal helps you move forward and gain momentum in light-hearted ways.

Tiger's eye – is a great stone for your mind as it lends focus for reasoning and decision-making. This crystal boosts self-confidence and aids meditation. It also brings insights and is inspirational.

Spirit Animals

Animals are healing – physically and spiritually. Shamans call on animals for every level of healing – physically, emotionally, mentally and spiritually. The spirit animals of 2022 are the buffalo and whale.

Buffalo – is the spirit animal of abundance as he honors the earth and imbues virtue to all those who connect with him. He is grounding, strength and

endurance. He helps you manifest your dreams, wishes, and desires. Call on him when setting your intentions.

Whale – she represents growth, intuition development and guidance. She connects you with your heart and helps you follow your own truth. She reminds you to go with the flow. She's the great communicator, so call on her during Mercury retrogrades.

MOMENTUM

The restrictions from the last two years are still in force and amorphous, boundless energies prohibit structure and stability from forming. Gathering momentum requires effort for most of 2022. Being in alignment with your true life purpose helps immensely as does allowing your intuition to guide you.

However, there are times when you want more movement than that. Create opportunities and use the energies to propel you forward.

Strategize

Be strategic and accountable. Set your strategy, identify your goals and objectives, make plans, determine timetables and create your calendar. Follow the stars to employ their positive energies and minimize their negative ones.

This is especially important this year.

You may want to employ a strategist as the topsy-turvy star forces can easily get you off track.

Get Support

There's so much support available online. The trick is determining what's truly aligned with you and your energies. Be discerning and practice discipline, then say yes to engaging support. (It's no coincidence these were the 2021 intentions. 😊)

Guides & Mentors

Working with Kim r:i has utterly transformed every area of my life. At the beginning of the year, I recognized that in order to maximize my personal, spiritual and business potential, I needed guidance, coaching and support from someone who could offer world class strategic business advise alongside first class Spiritual guidance. I'm honored and grateful for the privilege of working r:i with Kim and it will no doubt remain one of the best decisions I ever make.

*- Claudia Lawrence,
Dinner is Served*

There are physical mentors and spirit guides. Use both – you'll be better for it.

Groups

Either start or join one or two **like-minded groups** for ongoing outside input and guidance. Remember to be true to yourself and not be swept up in the group's energies. You have your own rhythm and tempo. Stay aligned with it.

Leverage Star Power

Refer to the big star questions and then review the following Sun, Moon and star influences. There's tremendous power in the cosmos. Think of it as your very own jet pack.

POWER OF THE STARS

In addition to the big star events explained at the beginning of the guide, there are seasonal, Sun, Moon, star tensions and monthly impacts available to you. Knowing what's happening in the sky gives insight into planning your year.

SEASONAL INFLUENCES

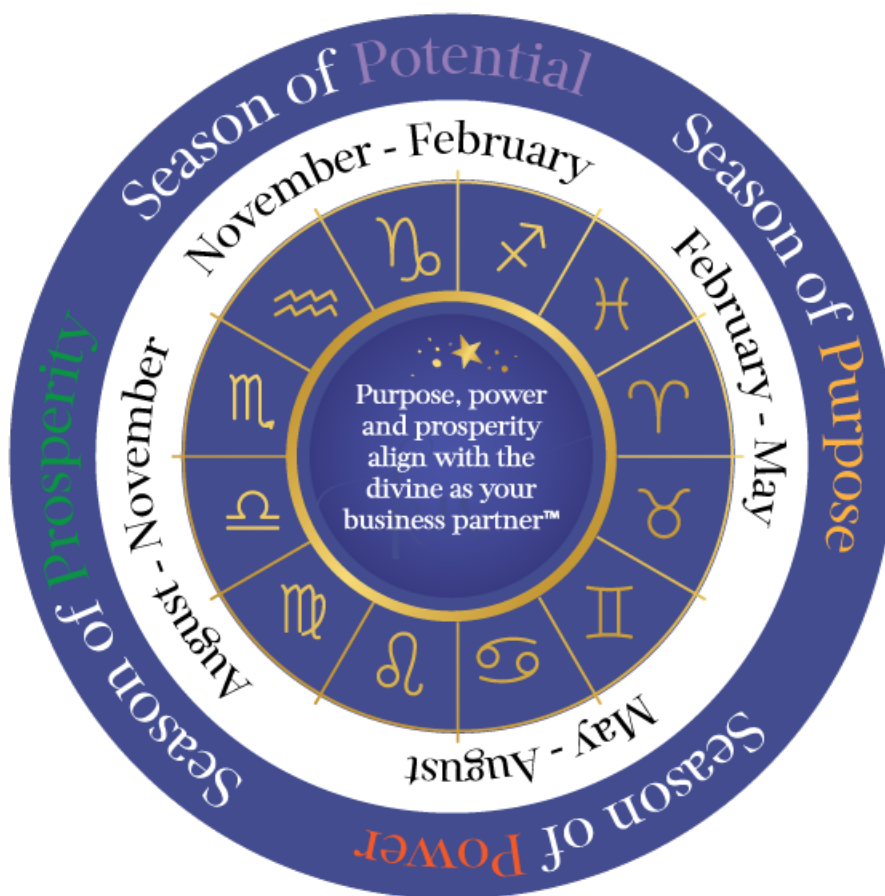

The seasons present energies to work with and these involve:

Season of Potential – November – February; Sagittarius, Capricorn, Aquarius

The stillness of the season welcomes potential for all of your dreams. Go inward to reflect on what you desire most. Let your mind wander and imagine. Plant seeds in the fertile soil of endless possibility.

Season of Purpose – February – May; Pisces, Aries, Taurus

The quickening of the energies ignites the divine spark to create in purposeful union of possibility and planning. Set your strategy to create your satisfying success.

Season of Power – May – August; Gemini, Cancer, Leo

Your growth is evident in the world. The power you express makes impact to all who come into your sphere of influence.

Season of Prosperity – August – November; Virgo, Libra, Scorpio

It's the time to harvest to gain the bounty of your careful planning and powerful influence. Reap your rewards and let go of expectation to begin another cycle.

FORECAST 2022

STAR TENSIONS

The stars create tensions throughout the year, however, there are a few of special note: retrogrades and out of bounds.

RETROGRADES

Mercury

Most have heard of Mercury retrograde and gasp when it's on the calendar. But, do you really know what it means? Overall, it involves communication snafus, technology crashes and travel snags. It's not a good time to sign contracts or start new projects. This includes buying a house, car or even big appliances.

Do's for Mercury retrograde	Don'ts for Mercury retrograde
<ul style="list-style-type: none"> - Be patient with travel plans and activities. - Take deep breaths when communicating with others as mishaps abound. - Anticipate appliances, mechanical and technical things may breakdown. Sigh and then get them fixed. - Know you're not alone – everyone is experiencing it right now. 	<ul style="list-style-type: none"> - Launch any new projects, products or initiatives. - Make any new deals. - Sign any contracts. - Buy or sell a house. - Negotiate any leases or contracts. - Make long term commitments with people you've met during the retrograde period. Wait until after the period is over.

FORECAST 2022

In 2022, the Mercury retrograde dates involve:

- January 14 – February 3 in Aquarius 10° - Capricorn 24°
- May 10 – June 3 in Gemini 4° - Taurus 26°
- September 9 – October 2 in Libra 8° - Virgo 24°
- December 29 – January 18, 2023 in Capricorn 24 – 8°

Each Mercury retrograde period also involves unique energies. This year Mercury challenges the air and earth signs of Aquarius, Gemini and Libra and Taurus, Virgo and Capricorn.

In January-February, he adds fuel to your limiting beliefs about your future. You're being tested to rely on your inner compass versus any external validation. This is especially true as Mercury brushes with Pluto at the end of his retrograde period. It's heavy and intense. Do not make any decisions at this time. Just. Don't.

In May-June, through the fog of another ecliptic cycle, Mercury spins your mind out of control. Your thoughts are absolutely unreliable. He slaps at the Full Moon on the 16th and swipes at the New on the 30th as he tangles with Saturn. Following your heart is the only way through as your mind has no way to tell what's real and what isn't.

In September-October, how you lead and love are the topics getting challenged. Mercury gives you insight into how the Mars in Gemini period will be for you. This is a 6-month long one, beginning on October 28. Take note during Mercury's antics in Libra and Virgo. It'll be enlightening.

In December, Mercury gifts the world with a 4th

retrograde period, beginning on the 29th. This is all about Capricorn. Any limiting thoughts or ideas are squashed – perhaps for good. The fiery energy obliterates Mercury's tangle in stalwart Capricorn.

Note: For air and earth signs and those with packed 2, 6, 10 or 3, 7, 11 houses, add the shadow periods for each retrograde cycle. Typically adding 12 days before and after provides adequate cover.

OTHER PLANETARY RETROGRADES

The stars provide forward momentum for a certain number of days every year. In 2022, all planets are direct from February 3 when Mercury stations direct until April 29 when Pluto turns retrograde. During these periods, any heartfelt intention gets maximum force from all of the planets.

Whatever intentions you set during the last eclipse pair November 19th and December 4th of 2021, have forward motion. As a reminder, the themes for the year are ALIGNMENT and MOMENTUM.

The stars move along a typical pace until the stratospheric big guys appear to move backward for a handful of months every year. In 2022, they start at the end of April and go through January 2023.

FORECAST 2022

Here are the dates and meanings:

Venus retrograde - December 19, 2021 - January 29, 2022 @ Capricorn

You're experiencing another Venus retrograde after 18 months without one. She's in the sign of Capricorn and wants you to know your value on the world stage. She's asking you to be authentically yourself, to deepen your commitment to integrity and to put forth your greatest acts of leadership.

Pluto retrograde – April 29 - October 8 @ Capricorn 28 – 26°

It's time to gather your power for influence, instead of control. Pluto retrogrades she turns your gaze inward to ask how you've been showing up for yourself and your loved ones. She'll force you to look at how you're leading and living your life. She doesn't give you relief by looking at your relationships with others during this time. But, you can glean excellent information about your power or powerlessness by reviewing the relationship interactions of prior few months.

Saturn retrograde – June 4 - October 22 @ Aquarius

Saturn in Aquarius helps you construct your life for the future and pushes you to go, go, go. When he's retrograde, he puts roadblocks in the forms of delays, sluggish energy, and health issues to make you choose what's most important. He wants you to rest and take a breath. He's asking you to reflect on your priorities to ensure you show up for YOU. This is also a great time to release karma. Best advice – get some healing and develop sound health routines.

Neptune retrograde - June 27 - December 3 @ Pisces 25 – 22°

It's reality time. The truth has come into focus as the rose-colored glasses have come off. Things are down to earth, but often more confusing. Changes are imminent, but with Neptune, compassion and love are also aplenty. Be kind to yourself and others as you embrace your heart's wisdom and follow its guidance.

Chiron retrograde – July 19 – December 23 @

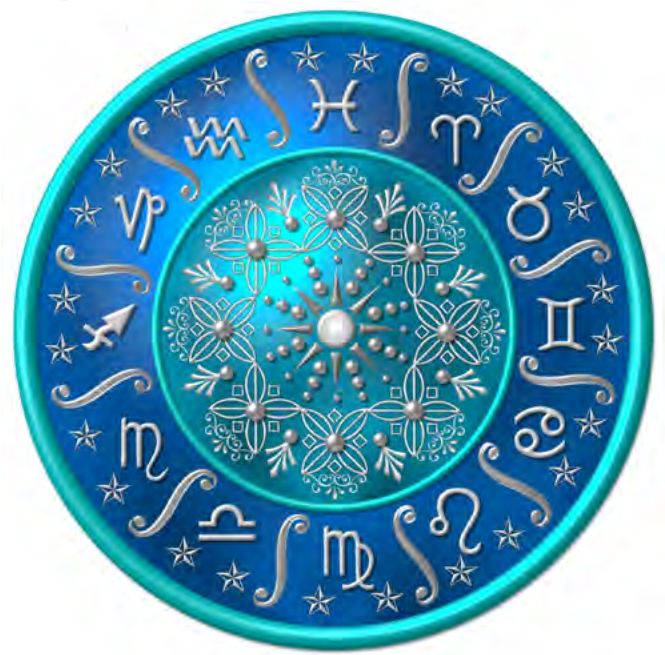

You have the opportunity for great healing. You observe old wounds and release your ties to them. You reevaluate your relationship with yourself and others in order to understand your past to give way to your future. In Aries, Chiron helps you see how your unique gifts fit into the world. Better yet, he helps you realize your unique gifts stand out and shows you how to bring them into the world – if you're brave enough.

Jupiter retrograde – July 28 – November 23 @ Aries 8 – Pisces 28°

Jupiter retrograde in Aries dominates this retrograde cycle from the end of July until the end of October.

FORECAST 2022

During this time, Jupiter asks you to ready yourself for all of the expansion in your life. He wants you to shore up your confidence, your leadership skills and your courage. As he moves back into Pisces for the November portion of his retrograde, he calls for self-compassion and emotional support. He wants to pull back any escapist tendencies too.

Uranus retrograde - August 24 - January 22, 2023

Uranus rules natural disasters, technology, inventions, electricity, scientific breakthroughs, dictators and rebellions. He gets even more unstable and unpredictable when he's retrograde, so be watchful. Personally, you get to choose yourself – freely without any intervention from others. When you embrace your authenticity, you take steps to gain independence and freedom. This is a time to express your true desires and to explore new ways of doing things.

Mars retrograde – October 30 – January 12, 2023 @ Gemini 25- 8°

Mars retrograde in Gemini may bring disruptions to mental pursuits and add to health issues, specifically for the lungs. This is music to the corona virus and all of its variants. This is also a time for accidents, so care is called for during this period.

The planetary retrograde overlap each other to fold you into yourself more and more time passes through the season of power and prosperity.

Pluto begins by herself in late April and gets a flash of Mercury in May and June. The big guns of Saturn and Neptune pull back in June. July adds Chiron and Jupiter and it's the 5 of them until Uranus enters his retrograde period at the end of

August. There's no relief at all for the remainder of the year. Mercury once again enters the fray in September and as Pluto and Saturn station direct in October, Mars retrogrades pulling all of the energy backward with him. Jupiter stations direct in November, but Neptune and Chiron don't until December. Mercury adds a 4th retrograde in 2022 at the very end of year, frustrating his energies with Mars and Uranus until mid-January 2023.

You can apply the meanings with an overlapping strategy following the timing described above. When you use these meanings in meditation and during your healing sessions, you leverage the force of the star energy for your highest purpose

ZANY FORCES

There are times the planets rebel against the gravitational pull of the Sun. When they do, they become a somewhat crazy version of themselves and impact you in unforeseen ways.

Let's look at the timing and possible impacts in 2022:

Mercury – 2 times: 1) July 6 - 13 2) November 23 – December 21

We have the opportunity for an explosion of

FORECAST 2022

innovative thoughts, excellent speaking faculties and talented performance abilities. Or, we can fall into exaggeration, obsessions and miscommunications.

Venus – 1 times: December 1 – December 24

We have grace and charm at our fingertips to use in romance, for business or with friends. Or we can be overly indulgent, materialistic and jealous.

Mars – 1 time: October 22 – May 5, 2023

We can act with bravery and courage, using our vitality to power us into our next project or adventure. Or we can act rashly, be too selfish or react defensively. This out of bounds coincides with his retrograde, making things completely out of control. Harsh words, violent tempers and aggressive messages become the norm once again. The virus, rebellions and weather events are at an all-time high during this period.

MONTHLY IMPACTS

JANUARY

You have the chance to see the value of accepting the new. Open yourself to positive change by staying flexible and operating from your heart, instead of your mind. Stress and busyness threaten your thoughts. Stay in your heart to uplift you and create ease. Choose nourishing and fulfilling activities. Satisfaction is the key to achieving your goals.

FEBRUARY

Freedom and equality calls, will anyone answer? If so, how they answer gives you a peek into the next decade. Personally, channel restless energy

into the plans you laid out last year. New and unexpected changes either push you into alignment with your true life purpose (therefore, satisfaction, abundance and success) or rock you into a spiral. You get to decide, as always, the choice is yours.

MARCH

This month is a mixed bag. There's good news and fortunate progress on things that have been held back for too long. There's also an impatient outburst because nothing seems to fit any longer. Enough is enough. Keep your cool and you'll leverage the positive aspects of this month.

APRIL

Angry temper tantrums, power grabs and conflicts are given sway while fortitude, commitment and integrity right everything again. Be true to you and stand in your power, without being defensive or aggressive. When you do, you're seen as a leader, especially when you let your heart guide you.

MAY

Your energy is high and you feel impatient while confusion reigns. Your mind can't decide which way to turn. Get creative and stay grounded to drop into your intuition. Rely on your strategy and stay

FORECAST 2022

focused on your alignment. Stand back and watch things come together. Be observant. This isn't the time to change direction.

JUNE

There is so much healing available. Will you take advantage of it or will you get frustrated by lack of progress? With discernment, get a glimpse of reality while you can. Your future is evident in your heart. Take notes on course corrections – think minor adjustments, not major ones.

JULY

You can release and heal this month. Transformation is in the air. Changes may be forced on you. Avoid the drama and desire to hold on too tightly. Can you let go of control and go with the flow? Now's the time. You can either breakdown or breakthrough.

AUGUST

There are many tests of character during the month. Hold your ground. Stasis is actually your best defense. Be assertive and direct when facing adversity. Don't take any risks, even though you may feel the urge. Your best course of action is to work slowly and methodically. Stay focused on the long-term.

SEPTEMBER

You feel relief after the last few months. Although Mercury retrogrades on the 9th for the rest of the month, you can get things done. You feel strong, devoted and ambitious. Research, organize and declutter. Tie up loose ends and finish those incomplete administrative projects.

OCTOBER

Take care of yourself to keep up your energy resources. Indulge yourself with a new design or splurge on a new look. Concentrate on yourself. Strive for clarity and define your role to avoid confusion. Avoid power plays by letting go of control and getting things done based on your own efforts.

NOVEMBER

This month is a roller coaster filled with challenges, stress and sudden changes and low energy and confusion. There's a push and pull without momentum. Be patient and stay determined. Don't procrastinate, roll up your sleeves and resolve issues as they arise.

DECEMBER

You have renewed energy and drive. You also have passionate yearning for fulfillment. You desire social fun as well as success. Why can't you have it all? The stars will give you what you want, but ask something from you too. Hard work and discipline is a better route than relying on an easier way.

BONUS # 1 – Numerology of the Year

In numerology, 2022 is a 6 number ($2+2+0+2 = 6$) which means unity, balance and harmony.

The opportunity to create a merging of ‘you and me’ for an equal and balanced acceptance of who, and what we are together, is possible.

Looking at the components of the numerology, 2 & 0, we find:

The 0 represents playfulness, innocence and spontaneity. This energy tells you to be inquisitive and express your feelings without reservation. It asks you to have fun with life and to search for the truth in order to grow.

The 2 involves wisdom, feminine energy and infinity, so this energy is also available. The 2 wants you to be humble and in service to other, so relationships can blossom. The 2 knows that no one is perfect and in order to achieve harmony, you must accept the imperfections along with everything else.

The numerology of the year gives everyone in the world the opportunity to be inclusive, accepting and peaceful. Who will wish for this with me?

“

Kim is magic. Working with her has made me more intuitive, more at ease with my choices, and has opened a clear path about my mission, my life experiences up a abundant way. It’s a unique experience that added so much to my daily life, I’ll be forever grateful.”

BONUS #2 – Lunar Year of the Water Tiger

Beginning February 1st – January 21, 2023, the Water Tiger is the animal representing the Lunar Year in Chinese culture. Each year, a different animal represents the energies of that year along a 12-year cycle, combined with 5 elements, making up a 60-year calendar. In western astrology, this energy is most closely related to Jupiter’s travels through the zodiac.

Water tiger energy signifies courage, pride and hard work. The tiger is the symbol of strength and power, instilling fear and respect throughout the kingdom.

There’s a rash and dynamic activity with the tiger as well as a magnetism. Passion, intensity, equity and independence are 2022 energies prevalent in society. Generosity and selfishness are tensions tiger plays with as he moves back and forth between the two, depending on his moods. Impetuous decisions and breaking free are two other influences this year.

The last time the tiger signified the lunar year was 2010, the last time for water tiger was 1962.
